

The OHAUS Valor 4000 water resistant food scale raises the bar and sets a new industry standard with the winning combination of touchless operations, speed, and durability. Available in both stainless steel and plastic housing designs, Valor 4000 offers large LED front and rear displays, food safety and legal for trade approvals and puncture resistant keypads, making it the premiere scale for use in dry or washdown environments.

With Legal for Trade certifications and a food-safe washdown design that's NSF Certified, Valor 4000 meets or exceeds most demanding commercial applications in dry or wet environments.

Valor 4000 has a polycarbonate keypad that can endure contact with knives or sharp instruments used daily in demanding food preparation, processing and portioning applications.

Safe to use in the weighing of liquids and in wet environments, Valor 4000's flow-thru design ensures the scale remains clean and operational.

Display: Large Dual Red LED Display: 0.8 inch / 20.5 mm height characters

Power: AC Adapter (Included) or Rechargeable Battery (Included)

Construction PW: ABS Housing with Stainless Steel Platform, XW: Stainless Steel Platform and Top Housing

Design Features: Easy to Clean, Less than 0.5s Stabilization Time, Easy-to-transport, Power Jack Auto-closed Design, Level Bubble, Fixed Weighing Pan, Overload and Underload Indicators, Low Battery Indicator, AC Adapter, Rechargeable Battery, Touchless Sensor for Tare Function.

PC-400

Exclusive "Quad-Spring" Shockproof Design

The PC-400 includes our field-proven exclusive "Quad-Spring" base design that virtually eliminates damage from shock and overload.

AC Power or Rechargeable Battery

The choice is yours. Use the included AC plug-in adapter or the internal rechargeable battery for total portability. Recharge the battery in less than four hours with the AC adapter; you can even use the PC-400 portion control while it's recharging.

Stainless Steel Construction

The case and removable platter are constructed with food-grade 304 stainless steel. Designed to the exacting standards of NSF, the wipedown-safe PC-400 cleans easily and quickly.

PC-500

Washdown Safe IP66

The PC-500 features a soft silicone seal that protects against washdown spray and allows a high level of accuracy.

1000% Overload "Quad Spring"

The PC-500 includes our field-proven exclusive "Quad Spring" platform protection design that provides 1000% overload defense, eliminating damage from shock and overload damage.

Battery Powered

1,000 hour battery life using alkaline batteries. The automatic shut-off feature will power down the scale when not in use. An AC adapter is available as an option.

6103

A small footprint is a great advantage where counter space is at a premium. Use the 6103 to build consistent products and control ingredient costs, enhancing customer satisfaction and maximizing profitability. 240 oz x 0.1 oz

← **Innovative “Touchless” Zero Mechanism**

Just wave or place your hand over the display to zero the scale.

← **Easy to Clean**

Removable stainless steel platter, detachable display and bracket.

← **Full Capacity Zero**

Weigh each ingredient as it is added.

6112

A small footprint is a great advantage where counter space is at a premium. Use the 6112 to build consistent products and control ingredient costs, enhancing customer satisfaction and maximizing profitability.

← **Innovative “Touchless” Zero Mechanism**

Just wave or place your hand over the display to zero the scale.

← **Easy to Clean**

Removable stainless steel platter, detachable display and bracket.

← **Full Capacity Zero**

Weigh each ingredient as it is added.

6115

The Model 6115 is perfect for use in pizza parlors, sandwich and salad shops, bakeries, supermarkets - anywhere portion control is required to maintain product quality and save on ingredient costs. The innovative “touchless” zero mechanism increases throughput, greatly extends the life of the scale and significantly enhances food handling safety.

← **Innovative “Touchless” Zero Mechanism** Just wave or place your hand over the display to zero the scale.

← **Pan / Tray Stops** Keeps product in center of scale.

← **Full Capacity Zero** Weigh each ingredient as it is added.

HL-WP Series

The HLWP Series of compact digital scales can be completely submerged in water. This allows for easy cleaning and eliminates the concern over accidental exposure to wet environments. The HLWP was designed to withstand the variety of harsh conditions found in commercial and industrial facilities.

IP67/NEMA-4X

- Stainless Steel Construction • Small footprint
- Portable (6AA batteries not included) • Multiple Units
- Clear LCD display • Stability indicator
- Tare function • Auto power off • AC adapter (optional)

SJ Series

Product Features

- Choices of Units: g, oz, lb-oz, lb
- Large, Removable, Stainless Steel Pan(9" x 7.5")
- Fast Response Time (less than one second)
- Automatic Power Off
- 800 Hour Battery Life
